### LOWNESVILLE

There was an unusual lessening of the young men and maidens of this town. Some went to their colleges of last year, others were new recruits. Those who left for their college duties were: Miss Christine Kay, to the Columbia Female College, Misses Mattie Lee and Blanche Coolcy, and Virginia Latimer, and Cornelia Tennant for Winthrop. Messrs Jas. Baskin, Alvin Harden and Keys Harper for Clemson, Mr. DeWitt Harper for Wofford, Mr. J. B. Kay for the medical college of Atlanta. Others will go later.

An unusual number of loads of unginned cotton to date have been brought to the gin here. There is also a marked effect on the better as to the disposition of it. Last fall almost nine-tenths of it was carried back home. This year perhaps one-tenth was carried home by claims upon it elsewhere. Cotton so far has brought a living price which went toward the payment of debts and times are better now than this time last year.

### FORD CAN SAVE SUBMARINE COST

New York, Sept. 23.—Henry Ford of Detroit, was in New York today to take a trip in one of the submarines with the New York navy yard in furtherance of his promised attempt to perfect a gasoline motor for use in such craft. Mr. Ford said that he did not intend to be submerged in a submarine, but intended to look them over.

Mr. Ford was insistent today that an efficient undersea craft could be built at one-sixteenth the cost of the present vessels. When he was asked how many of them he would suggest building, he replied "none."

### RACE TRACK BUILDINGS BURN IN CITY BY THE SEA

Charleston, Sept. 22.—The grand stand, the judge's stand, the paddock and about two hundred stalls at the Palmetto Park race track were destroyed by fire early yesterday morning. The loss is estimated at between \$30,000 and \$40,000, half of which is said to be covered by insurance. It is believed that the blaze was caused by defective wiring.

Persons living near the track noticed the flames and an alarm was immediately telephoned to Chief Behrens, who dispatched Motor Engine No. 2 and 1,200 feet hose to the scene. When the engine arrived the grand stand was a mass of flames, as were some of the adjoining stables.
